II. Basis for Jurisdiction

Federal courts are courts of limited jurisdiction (limited power). Generally, only two types of cases can be heard in federal court: cases involving a federal question and cases involving diversity of citizenship of the parties. Under 28 U.S.C. § 1331, a case arising under the United States Constitution or federal laws or treaties is a federal question case. Under 28 U.S.C. § 1332, a case in which a citizen of one State sues a citizen of another State or nation and the amount at stake is more than \$75,000 is a diversity of citizenship case. In a diversity of citizenship case, no defendant may be a citizen of the same State as any plaintiff.

What is the basis for federal court jurisdiction? *(check all that apply)*

Federal question

Diversity of citizenship

Fill out the paragraphs in this section that apply to this case.

A. If the Basis for Jurisdiction Is a Federal Question

List the specific federal statutes, federal treaties, and/or provisions of the United States Constitution that are at issue in this case.

4th amendment, 5th amendment, *statutes listed in affidavit*

B. If the Basis for Jurisdiction Is Diversity of Citizenship

1. The Plaintiff(s)

a. If the plaintiff is an individual

The plaintiff, *(name)* Erika K Meyer, is a citizen of the State of *(name)* Oregon.

b. If the plaintiff is a corporation

The plaintiff, *(name)*, is incorporated under the laws of the State of *(name)*, and has its principal place of business in the State of *(name)*.

(If more than one plaintiff is named in the complaint, attach an additional page providing the same information for each additional plaintiff.)

2. The Defendant(s)

a. If the defendant is an individual

The defendant, *(name)*, is a citizen of the State of *(name)*. Or is a citizen of *(foreign nation)*.

Pro Se 2 (Rev. 12/16) Complaint and Request for Injunction

b. If the defendant is a corporation

The defendant, (name) FBI, CIA, is incorporated under the laws of the State of (name) U.S. federal government, and has its principal place of business in the State of (name) Oregon.
 Or is incorporated under the laws of (foreign nation) _____,
 and has its principal place of business in (name) _____.

(If more than one defendant is named in the complaint, attach an additional page providing the same information for each additional defendant.)

3. The Amount in Controversy

The amount in controversy—the amount the plaintiff claims the defendant owes or the amount at stake—is more than \$75,000, not counting interest and costs of court, because (explain):

the torts (and crimes) are longstanding, egregious, and involve significant injury, distress, and Theft.

III. Statement of Claim

Write a short and plain statement of the claim. Do not make legal arguments. State as briefly as possible the facts showing that each plaintiff is entitled to the injunction or other relief sought. State how each defendant was involved and what each defendant did that caused the plaintiff harm or violated the plaintiff's rights, including the dates and places of that involvement or conduct. If more than one claim is asserted, number each claim and write a short and plain statement of each claim in a separate paragraph. Attach additional pages if needed.

- A. Where did the events giving rise to your claim(s) occur?
Portland, Oregon

- B. What date and approximate time did the events giving rise to your claim(s) occur?
These are ongoing events which are the subject of pending litigation

Pro Se 2 (Rev. 12/16) Complaint and Request for Injunction

- C. What are the facts underlying your claim(s)? (For example: What happened to you? Who did what? Was anyone else involved? Who else saw what happened?)
(Affidavit)

Please see attached affidavit

IV. Irreparable Injury

Explain why monetary damages at a later time would not adequately compensate you for the injuries you sustained, are sustaining, or will sustain as a result of the events described above, or why such compensation could not be measured.
Issue of a safety around court proceedings

if these offenses do not end, there can be no attorney-client privilege, and witnesses, plaintiff, judges, attorneys may all be at risk

V. Relief

State briefly and precisely what damages or other relief the plaintiff asks the court to order. Do not make legal arguments. Include any basis for claiming that the wrongs alleged are continuing at the present time. Include the amounts of any actual damages claimed for the acts alleged and the basis for these amounts. Include any punitive or exemplary damages claimed, the amounts, and the reasons you claim you are entitled to actual or punitive money damages.
Cease and desist all activities ~~related to~~ described in affidavit

VI. Certification and Closing

Under Federal Rule of Civil Procedure 11, by signing below, I certify to the best of my knowledge, information, and belief that this complaint: (1) is not being presented for an improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation; (2) is supported by existing law or by a nonfrivolous argument for extending, modifying, or reversing existing law; (3) the factual contentions have evidentiary support or, if specifically so identified, will likely have evidentiary support after a reasonable opportunity for further investigation or discovery; and (4) the complaint otherwise complies with the requirements of Rule 11.

A. For Parties Without an Attorney

I agree to provide the Clerk's Office with any changes to my address where case-related papers may be served. I understand that my failure to keep a current address on file with the Clerk's Office may result in the dismissal of my case.

November 11, 2022

My name is Erika Katrin Meyer. I solemnly affirm under penalty of perjury that the following is, to the best of my knowledge, true. I was born March 29, 1968 in Friday Harbor, Washington and have been a resident of Portland, Oregon since August 2000. My daughter is Brook Morgan Thompson. She was born December 11, 1995 and is currently a PhD candidate at UC Santa Cruz. Christopher Lynn Newman (Chris) was my spouse since 2009. He was born in Longview, Washington July 11, 1953 and died in Portland Oregon May 9, 2021. I refer to him as my husband because we had been engaged beginning in fall of 2010, but he was fraudulently convinced by a friends and family not to enter into a legal marriage with me.

Beginning in late 2013, while doing research on Chris' history, I discovered what appeared to be a pattern of intellectual property theft and blacklisting of him going back to the mid 1980s. While looking further into this in order to understand what was going on, I began to notice first a lot of bizarre posts on social media where at the time, our contacts were almost entirely music related. I also noticed steadily increasing signs of computer hacking and intrusion into accounts. All of this seemed to increase significantly after I'd published an article about Chris' bands in September 2013, and into the winter holidays. The hacking became so destructive that I decided to delete several social media accounts rather than try to repair them.

Between January 18 and January 20, 2014 there was a sharp increase in hacking and other bizarre and seemingly coordinated activities in social media. On January 20 in particular I first noticed signs that my office computer web cam had been hijacked, and then, via things reflected back through media, it looked pretty certain that all of our webcams had been hacked and that there had been other surveillance in and around our home, and that data from the surveillance had somehow been distributed into the world. This was cause for real concern since we all had computers in our bedrooms and other private areas. I called to report this to Portland Police.

Before listening to my story or examining evidence, Officer Zach DeLong told me that it was standard operating procedure in cases of reported surveillance to first be evaluated by a physician. I was not concerned about this request since I was not a danger to myself or others, I was simply reporting a crime. DeLong brought me to a facility which I later learned was an emergency room, and I spoke briefly with a doctor. The doctor attempted to put me on an emergency psychiatric hold, but eventually released me. The following day I called police a couple more times trying to complete my report, but they refused to take any report from me. This initiated a pattern of ongoing and increasing attacks on me. Beginning January 25, 2015 I began to try to report the crimes to the FBI. Any attempts to report these crimes, whether to police or FBI seemed to put me at risk either or increased retaliation - either physical retaliation or captivity via a manufactured psychiatric hold.

Thus I was forced to try to investigate or understand these crimes without assistance or support from friends, family, an attorney, or law enforcement. In fact, when I did seek assistance, I was inevitably misdirected and lied to. My medical records are full of lies and misrepresentations that seem to be scripted and coordinated.

In particular, I was very confused at about who was behind these crimes, and some of the unusual technologies being employed. Beginning in 2014 I was cognizant of having been attacked by what I first understood to be some kind of wireless shocking devices. These attacks have varied in nature but have been ongoing and very noticeable since 2014.

Beginning in 2017 I began to notice signs of objects implanted under my skin, in my eyes, ears, nose, throat, dental work, and inside my digestive system. Based on something I'd seen online, in October 2017 I purchased a wide range bug detector with a directional antenna, and using this device, I was able to detect wireless signals coming from areas throughout my body, including from the aforementioned areas, and from my head and my heart. I made video of some of this bug detection. I also detected consistent wireless signals coming from

different areas in my apartment including fire sprinklers. I pretty quickly began to understand that the various electronic effects I'd been feeling were likely being aimed at the signals I was picking up with the bug detector. It took me some time before I was able to answer all the obvious technological questions about this - for example, how and when these devices were put into my body, why they aren't being detected on radiographs, what kinds of weapons are being aimed at the devices, and most importantly, who is behind all of this.

One thing I began to understand in 2017 is that one of the things that these biomedical implants seem to have been responsible for are decades of debilitating back spasms I have experienced since 1990. I also began to realize this technology was being used adversely on my husband, daughter, and other family members as well as on my pets. I didn't realize how much my husband had been suffering, however, until after he died and I immediately began to experience some of the same symptoms he'd had since I met him in 2009 including control and restriction of urinary function and associated abdominal discomfort.

April 3, 2018 one of my cats was pretty obviously tortured and killed with a directed energy weapon, dying at exactly 4:33 am.

May 22, 2019 armed with a significant amount of documentation, I attempted to report these biomedical reports to the FBI in person. I was told that they "probably would not investigate." Thinking that this might be an issue specific to the Portland office I followed up the visit with a written complaint to the Washington D.C. office and provided a list of links which included photographic and video evidence in support of my claims, as well as documentation of various scientific measurements showing evidence of unusual and possibly dangerous wireless frequencies. The FBI never responded to me, but approximately two weeks later, around June 3, 2019, Chris was hospitalized with heart failure. Two years later, on May 9, 2021, Chris would be dead of a cancer that the hospital should have found - and which evidence suggests they did find - in June 2019 - but which he was unaware of until January 2021.

I began to experience what were clear to me were biomedical attacks to my heart which became very severe in 2020 leading to several incidences where I had to call an ambulance to bring me to the emergency room. Every time I was told there was nothing wrong with me. I attempted to report these incidents to police as wireless attacks. Police told me they had no means to detect wireless attacks. I attempted to report the incidents to the FBI who consistently told me "we don't investigate these kinds of crimes" and instructed me to call police or go to the hospital. When I told the FBI that the hospitals seemed to be involved in this (as I'd discerned by that point) the FBI would simply hang up on me. But there were one or two instances where calls I'd made to the FBI were interrupted by unusual incoming calls from Providence Hospital. I recorded my calls to the FBI. Some of the recordings were electronically sabotaged later.

It took me a very long time to realize that the FBI themselves were involved in these activities. I started to understand this after Chris became sick with cancer, though as late as 2021 after Chris' death I was still trying to get help from the FBI. I was at a loss as to what to do about this. I spent quite a bit of time researching crime victims rights laws and redresses but was told that I couldn't evoke crime victims rights laws if the police refused to take reports from me. Eventually I discovered the Federal Torts Claims Act, and on September 16, 2022 I filed a claim with the Department of Justice against the FBI citing a number of complaints including their refusal to follow up on my crime reports. I still am in the process of seeking legal assistance but as time goes on I am becoming increasingly convinced that the CIA is also involved in these wireless attacks and so it is likely that they will ultimately also be named as defendants.

I had hoped that by filing these claims and directly asking the FBI to cease biomedical/wireless attacks, that they would do so voluntarily, but of course, the exact opposite has happened. My remaining pet cat and I both experience daily physical attacks via directed energy devices and frequency-based weapons systems, likely linked to drones and antenna towers. I can show evidence of unusual drone activity. I also believe other family

members are being harmed, and that potential witnesses, attorneys, and judges may be at risk. Furthermore, because of the retaliatory patterns, it's pretty obvious that there is really egregious surveillance going on, including surveillance of my computer screen, as well as monitoring of phone calls and text messages. All of this is likely to have a chilling effect on my ability to seek counsel and access a fair trial. There is even evidence that this technology is used regularly to control thoughts and behavior. If the FBI/DOJ and CIA/State Department are permitted to engage in these kinds of surveillance, attack, and control activities unchecked, it's a threat to the very notion of justice.

In addition, there has been an ongoing and pervasive pattern of evidence tampering and destruction. This includes tampering with physical files kept in my apartment or locker, as well as electronic files on my computer, external hard drives, and google cloud accounts. This evidence tampering and destruction also needs to be stopped.

I have reason to believe that both I and my daughter are in extreme danger from the FBI and/or CIA. I have what I consider to be a significant amount of evidence that my husband Chris was sickened, tortured, and murdered by the FBI and CIA and I believe that I have clear evidence of FBI/CIA conspiracy to commit murder against me and my daughter as well, in the form of some of these implants, including implants that were put into my body after 2014. My daughter also has shown many signs of being implanted, sickened, and harmed in a number of ways, psychologically as well as physically.

I am asking for an injunction against the FBI and associated parties (for example, any associated weapons, research, or hospital/medical systems or other contractors) to cease and desist all activities related to biomedical weapons used on all American citizens pending the outcome of this complaint and/or trial. I am also asking for a cease and desist order on surveillance activities centering me, the complainant, my daughter, our family members, and any potential attorneys, judges, or witnesses.

Involved activities and threats include:

- evidence tampering (both physical and electronic evidence) ORS 162.295
- harm to my cat, Roxy, or other pets ORS 167.320, ORS 167.322
- harm to me, my daughter, potential witnesses, attorneys, judges ORS 163.185, ORS 163.175, ORS 162.415
- threats (including implied threats) to me, my daughter, potential witnesses, attorneys, judges ORS 163.190
- other attempts to influence judges, attorneys, or witnesses ORS 162.285, ORS 162.015, ORS 162.025, ORS 162.085
- warrantless (unlawful) surveillance of me, potential witnesses, attorneys, judges ORS 9.750, ORS 162.425
- ORS 161.450 - criminal conspiracy (conspiracy to commit murder among others)
- violations of 4th and 5th amendment (unlawful surveillance)

All the facts stated above are true and correct to the best of my knowledge.
