Hi - this is a horrible question to have to ask, but do they ever do snapshots of the Student Web Server accounts? When I went to upload my final website/portfolio to my own server, the CSS page turned up missing. I don't know how this happened, but I'm really bummed out. I had an external hard drive crash and I can't find any backups. I had CAS111D last quarter.

Sad.

this was my acct
