I am being attacked daily with directed energy weapons, some of which I understand to be drone-based. Police and FBI refuse to help or protect me and I believe they may be involved in the crime, and in smearing me with false medical diagnoses (<https://www.seastorm.com/anatomy/medical/misdiagnosis/>), and in other types of cover-ups including evidence destruction. *I am in danger and so is my daughter.* We need to be protected from this crime as soon as possible. Please help.
