

## **With regards to us, following articles of the UDHR are being violated**

**Article 2** - I and others are being made to believe that Chris' rights, my rights, the rights of my daughter are being legitimately violated because of my family of origin. As an American citizen, this also appears to be a violation of the 14th Amendment.

**Article 3** - Our right to life, liberty, security, etc are grievously violated. We are surrounded by killers armed with frequency-based radiation (aka directed energy or electronic) weapons as well as being constantly tracked by drones and by members of the community (likely working unlawfully with law enforcement) through our phones and through implanted wireless devices. Our medical care is clearly also being directed by an organized crime network.

**Article 4** - Our position is equivalent to slavery as we are being heavily exploited or "mined" for ideas as well as being used and experimented on medically and sexually by a number of industries, especially the entertainment business. Their intent seems to be to exploit and then assassinate us, and to continue exploiting and assassinating. They are behaving as if exploitation and assassination is their right.

**Article 5** - I am regularly tortured via a covertly placed medical body area network and via electronic weapons systems. Assaults and trafficked materials are designed to be cruel and degrading.

**Article 6** - We are treated as objects (dolls) or pets.

**Article 7** - We are heavily discriminated against and not being afforded legal protections.

**Article 8** - We are being refused remedy under the law.

**Article 9** - We are effectively being subjected to arbitrary detention and this has been going on for at least 7 years with no end in sight.

**Article 10** - In have been given the impression that we've been accused of crimes but this has never been said directly to us and we have never had the opportunity to face our accusers, to be presented with evidence against us, and to defend ourselves from specific accusations.

**Article 11** - We've been detained indefinitely and for unknown reasons. Access to counsel has been blocked in various ways including the "cookie" system of bribery and implied threats of violence for anyone defying the *omertá*

**Article 12** - Libelous attacks and interference with our privacy, family life, and correspondence has been constant and done with intent to harm us or to get us killed.

**Article 13** - When I had a vehicle and the ability to travel, I was followed, harassed, and harmed.

**Article 14** - It shouldn't have to come to this - seeking asylum in another country - but it's clear we couldn't do this if we wanted to due to the breadth and influence of this crime network.

**Article 16** - Our right to marry has been violated by family members on behalf of organized crime.

**Article 17** - Our right to own material and intellectual property has been violated via sabotage, theft.

**Article 18** - This group uses violence and bribery as well as mind control to force ideas, a bizarre sex and death cult, and *omertá* on everyone worldwide

**Article 19** - *omertá* and the violence used to enforce it has a profoundly chilling effect on free expression

**Article 20** - Only adversarial people with ill intent are allowed close contact with us or even to mention or promote us in anyway.

**Article 21** - Our access to public service is controlled

**Article 25** - Due to blacklisting and theft, we've been left destitute and at the mercy of organized crime. Financially, we can't move out of our home even though the conditions here are deadly.

**Article 26**

**Article 27**

**Article 28** I believe this crime group has infiltrated governments in many countries and the UN is doing nothing to prevent or counter this. The United States has all the necessary laws in place to set a positive life-affirming example here – but existing laws must be *enforced* while secret unconstitutional “laws” must be discarded.

**Article 29**

**Article 30**
